REFERENCE : Letter from Congressman Charles A. Mosher  
to DCI dated 21 July 1976; Same Subject

I was pleased to learn of the contribution [REDACTED]

kind of direct participation in the legislative process is a  
valuable experience and should not be curtailed arbitrarily.  
Consequently, I have no objections to the proposed extension

Hon. George Bush, Director  
Central Intelligence Agency  
Washington, D.C. 20505

Dear George:

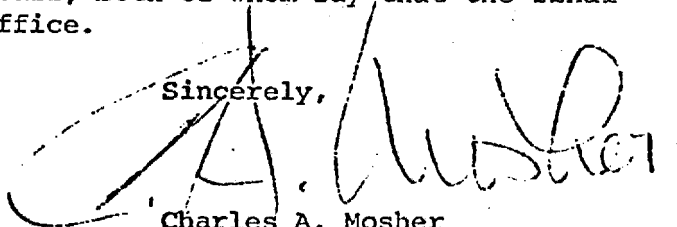

I have had the pleasure of having Mr. [REDACTED] of the CIA serve on my staff as a Congressional Fellow during the last 90 days.

He is presently acting as a legislative assistant specializing in scientific and energy affairs and is coordinating my efforts to establish a national program of earthquake hazard reduction by means of H.R. 14650 which I recently introduced. This legislation has completed subcommittee hearings, and Rodger is working closely with committee staff and members of Senator Cranston's staff in drafting a House/Senate compromise in preparation for markup and floor action.

Rodger's continued assistance as this legislation progresses would be most helpful. Consequently, I would greatly appreciate it if there is anyway you could extend his assignment with my staff through December. Such an extension would also allow him to complete a series of working sessions within the Office of Technology Assessment which have been organized for him by Director Mim Daddario at my request.

I have consulted with Dr. Thomas Mann, Director of the American Political Science Association's Congressional Fellowship Program, regarding this matter. He says he would approve an extension through December. Rodger also informs me that he has discussed this matter with [REDACTED] of your Legislative Counsel Staff and [REDACTED] of DDS&T Personnel Staff, both of whom say that the final decision must be made in your office.

Sincerely,

Charles A. Mosher  
Representative to Congress
